PROJECTS

CODE VILLAGE | UNDER SDSLabs

- **Code Village** (<https://codevillage.sdslabs.co/>) is an online competitive coding platform made in Laravel.
- worked on adding an admin panel to aid the process of competition and problem handling

UNISYNC | MICROSOFT CODEFUNDO '17

- **UniSync** (<https://github.com/ankitkataria/CodeFunDO>) is a speaker integration-cum-video discussion platform supporting multiple rooms and real time chat. Speaker Integration is achieved by streaming the same audio on all the devices
- developed using NodeJS and Socket.io in a team of three.

FOR PROJECTS UNDER DEVELOPMENT VISIT:
Github ([HTTPS://GITHUB.COM/ANKITKATARIA](https://github.com/ankitkataria))
